EU HEALTHY GATEWAYS: WEB BASED TRAINING RESOURCES CATALOGUE FOR POINTS OF ENTRY

Deliverable D9.1

Version Number 01

March 2022

Work Package 9: Capacity Building - Training

**Work Package Leader: National Institute for Public Health and the Environment
(RIVM), the Netherlands**

1 INTRODUCTION

This is Deliverable number 9.1 entitled '**Web based training resources catalogue for points of entry including international, EU and national courses**' developed under *Work Package 9: Capacity building & Training* of the EU HEALTHY GATEWAYS Joint Action. The EU HEALTHY GATEWAYS Joint Action has received funding from the European Union, in the framework of the Third Health Programme (2014-2020).

2 PURPOSE OF THE TRAINING RESOURCES CATALOGUE

The overall aim is to develop an electronic searchable catalogue, where interested parties can find training resources for points of entry (PoE), including international, EU and national courses.

The catalogue covers the following areas:

- Maritime transport
- Air transport
- Ground crossings
- Chemical threats

3 DEVELOPMENT OF TRAINING RESOURCES CATALOGUE

All training materials developed for EU HEALTHY GATEWAYS (<https://elearning.shipsan.eu/>) were described in a standard Excel format in order to be able to add search labels. To keep it simple and controllable, the number of labels has been maximized. The catalogue contains links to the website where materials can be downloaded. For the building of the database technical assistance was available.

The EU HEALTHY GATEWAYS web-based training resources catalogue can be found at the following URL: <https://www.healthygateways.eu/Web-based-training-resources-catalogue>

4 TARGET AUDIENCE

The catalogue is aimed at professionals involved in preparedness and response for infectious diseases at PoE or on a national level, including:

- 1) *Experts and professionals (e.g. conveyance inspectors, epidemiologists, personnel working at countries authorities responsible for preparedness and response at point of entry, public health authorities, national authorities).*
- 2) *Joint Action consortium partners, who will have the ability to find relevant HEALTHY GATEWAYS and other training materials via the catalogue.*

5 STRUCTURE OF THE CATALOGUE

The catalogue provides hyperlinks to be able to access and download the training materials, with login information if applicable.

Each material has a title describing the content of the material, with information on the content described under the following search labels:

1. Country
2. Year of development
3. Published language
4. Category:
 - a. Maritime transport
 - b. Air transport
 - c. Ground crossings
 - d. Chemical threats
 - e. Generic
5. Level
 - a. National
 - b. International
 - c. EU
6. Type of material:
 - a. E-learning
 - b. Case study
 - c. Table top exercise
 - d. Exercise
 - e. Reader
 - f. Lecture

- g. Video
 - h. Outline of training, training agenda
 - i. Training module
 - j. Webinars
7. Duration:
- a. < 30 minutes
 - b. 30 -60 minutes
 - c. 1-2 hours
 - d. > 2 hours
 - e. Multi-day
8. Target audience:
- a. Public health professionals
 - b. Airport officers
 - c. Port officers
 - d. Ground crossing officers
 - e. Management
 - f. Airport Industry
 - g. Maritime Industry
 - h. Transport Industry

Clarification of some of the target groups

Public health officers:

Professionals working at public health institutes/authorities on national, regional or local level having one or more of the following responsibilities:

- *Preparedness planning for responding to public health events at PoE, and/or*
- *Decision making for implementing health measures (e.g. exit/entry screening) at PoE, according to Decision 1082/2013/EU and the International Health Regulations 2005 (IHR) WHO temporary recommendations.*

Airport officers:

Persons working at an airport or in the air travel sector (PoE designated in accordance with the IHR, or other 'non-designated PoE that are of public health significance), responsible for preparedness planning and/or – public health event management at airports

Port officers:

Persons working at a port or in the maritime travel sector (PoE designated in accordance with the IHR, or other 'non-designated PoE that are of public health significance), responsible for preparedness planning and/or – public health event management at ports

Ground crossing officers:

Persons working at a ground crossing (PoE designated in accordance with the IHR, or other 'non-designated PoE that are of public health significance), responsible for preparedness planning and/or – public health event management at ground crossings.

6 PROCESS FOR UPDATING

Both the catalogue and training materials are available on the website of EU HEALTHY GATEWAYS. Training materials can be downloaded and modified to the specific needs of an event, depending on the local context.

Users are encouraged to add comments and to send in their modifications and/or adjustments in order to improve all materials and keep on building this catalogue. We propose to establish a small dedicated unit able to update the catalogue regularly with new or improved training materials under the framework of secretariat support services assigned to the *Public health observatory in means of transport and points of entry* under the Laboratory of Hygiene and Epidemiology of the University of Thessaly.
